SUMMARY

Frontend developer with a 12-year Apple tenure spanning web development, e-learning, and technical training. Builds accessible web experiences, reusable React components, and booking and payment workflows using JavaScript, TypeScript, and Astro.

RELEVANT EXPERIENCE

Ben Tims Media 2026 - Present
Founder / Web Developer

- Built a responsive business website with Astro, React, TypeScript, and Tailwind CSS.
- Implemented self-service booking with calendar scheduling, add-on selection, and Stripe checkout for deposits or full payment.

Apple Inc. 2014 - 2026
Frontend Web Developer / Content Developer *2024 - 2026*

- Developed and debugged interactive e-learning content using HTML, CSS, JavaScript, and XML, aligned with SCORM, WCAG 2, and Apple standards.

Frontend Web Developer *2022 - 2024*

- Built responsive internal web experiences meeting WCAG 2 standards; published and maintained Drupal pages using HTML5, CSS3, and JavaScript.
- Refactored RecruitingWeb UI components to better align with Apple accessibility standards.
- Partnered with content managers to launch Apple's 2022 intern site through the Frontend Mentoring Program.

AppleCare Senior Advisor Mentor & Technical Trainer *2014 - 2022*

- Led macOS and Terminal onboarding for technical and non-technical new hires; improved training content, raising final training scores by 12.6%.
- Partnered with engineering teams to gather diagnostic logs supporting root-cause analysis.

Tibles Inc. 2021 - 2023
Frontend Developer (Consultant)

- Co-designed and built responsive Dr. Seuss and OneShots collectible websites with Figma, HTML, and CSS; led testing across devices.

SELECTED PROJECTS

Storybook Component Library

- Built and published a React library with 30+ components and 43 Storybook stories, using design tokens for consistent theming and Chromatic for hosting.

Find My ISS

- Built a JavaScript app that fetches satellite data every 5 seconds to update map position, altitude, and velocity.

EDUCATION

Austin Community College 2021
Software Coding Bootcamp Certificate | 24 weeks; 240+ classroom hours; 200+ project hours.

TECHNICAL SKILLS

Languages: JavaScript (ES6+) | TypeScript | HTML5 | CSS3 | XML
